# Priyansh Deora

Product Designer | UI/UX Designer

+91 9373303231 | Kolhapur, India | priyanshdeora143@gmail.com | https://priyansh-deora-portfolio.vercel.app/

## PROFESSIONAL SUMMARY

Product Designer With 2+ Years Of Experience In AI, Networking, Healthcare And Enterprise Products. Sole Designer On A 450-Screen Redesign Of An AI Networking Platform, From Research And Design System To Developer Handoff, With A Focus On Turning Complex Workflows Into Clear Products.

## EXPERIENCE

**UI/UX Designer(Full Time)**

Cocpit, Kolhapur — Apr 2026 - Sept 2026

- Sole Product Designer. Redesigned An AI-Built MVP Of An AI-Powered Professional Networking Platform From Scratch Across Web And Mobile, Covering Research, Information Architecture, Flows, Wireframes, UI And Developer Handoff (450 Screens). The Product Is Live On UAT With About 200 Users.
- Ran 4 User Interviews And Analysed 2 Competitor Apps To Build Personas And Shape The Redesign.
- Proposed New Job-Matching Logic To Replace Random, Search-Based Suggestions, Using Skills, Experience, A Numerical Fit Score, And Company Response And Reply Rates. AI Is Used Only Where It Speeds Up The Process, Such As Calculating Candidate Fit.
- Argued For Insight-Driven Profile Analytics Instead Of Basic View Counts. Viewers Are Segmented By Recruiter, Organisation And Regular User, With Matching Openings, Link Clicks, Viewer Location And Industry, And A Networking-Fit Indicator [Built On UAT / Designed Only].
- Introduced Verified-Only Job Posting And Defined A Single Product Design Language, So Principles Like Verification And Security Apply Consistently Across The App.
- Built The Figma Design System And Developer Handoff Rules, And Specified Details Such As Image Ratios In The Feed Composer And Published Posts.
- Applied The Branding Team's Identity To The Product And Suggested Colour Changes.
- After Development, Ran Design QA On The UI And Flows With Developers, Refining Pixels, Animation, Effects And Flows.
- Managed The Project For The First 3 Months Until A Manager Joined, Interviewed Designer Candidates, And Mentored An Intern Designer.

**UI/UX Designer(Full Time)**

Aibuzz Technoventures Pvt Ltd, Mumbai — Dec 2024 - Mar 2026

- Sole Designer On Aibaze, An AI-Assisted Office Suite With A Document, Spreadsheet And PDF Editor And File Manager. I Owned UX And UI From The Feature List Through Wireframes, Prototypes And Developer Handoff, With 200+ Web Screens And A Smaller Mobile Set, Including Prompt-Based AI Editing.
- Designed The Full Doctor Flow And Part Of The Lab And Pharmacy Flows For MEDOCR, A Healthcare Platform Built By A 6-Designer Team For Web And Mobile. It Covers OCR Prescription Upload, Medicine Purchase, Doctor Appointments, And Virtual Or In-Person Lab Tests. Designs Were Reviewed By The Team Lead.
- Designed The Permissions, Analytics, Admin Panel And Onboarding For Dass OS, An Enterprise Workspace App (3 Designers) For Web And Apple Devices, Following Apple's Design Conventions.
- Used A Design System For Consistency Across Products, And Used ChatGPT And Claude To Explore Flows, With Every Design Reviewed And Iterated With The Team Lead.
- All Products Were Pre-Launch.

**UI/UX Designer(Internship)**

Reboot Consultancy & Services, Pune — Dec 2023 - May 2024

- Led The Navigation Flow And Page Storyline For A Three.Js 3D Website For Skyone Arch, An Architecture And Interior Firm, In A 3-Designer Team. The Flow Runs From Intro To About, Projects, VR Experience, Metrics, Testimonials And Contact.
- Produced Wireframes And High-Fidelity UI For The Landing And About Pages, Integrating A Blender 3D Model Of The Office, An About Video And A VR Project Walkthrough.
- The Live Site Gets About 1.7K Monthly Visits (~59 Daily Unique Visitors) With A 35% Bounce Rate And 29% Organic Search Traffic (Similarweb Estimates).
